

I can't believe this programme...  
It's like having a genie in a bottle – it  
reads your mind about what you  
really want and the resources seem  
to magically appear!

Rachel Homsey - Literacy co-ordinator, ex-NLS Consultant

## What is Phonics International?

- A systematic, highly flexible, synthetic phonics programme to teach reading, spelling and handwriting
- Designed for all ages and needs from 4+ to adult
- Highly suitable for whole school use (mainstream and intervention), tutoring, home-schooling and working in partnership with parents
- Designed for ease of classroom management and differentiation
- Train as you use the programme or whole school training available (please contact us for details of our training packages)

## What does Phonics International include?

- Unique and comprehensive range of multi-sensory teaching and learning aids and posters
- Extensive bank of cumulative, decodable learners' resources (word, sentence and text level for all letter/s-sound correspondences as illustrated on The Alphabetic Code Overview Chart) in 12 progressive units
- Additional Early Years Starter Package for units 1 to 6
- All the paper-based resources available to print online at the click of a mouse
- Plus online audio-visual resources, advisory message forum and email/telephone support

# Phonics International provides your:

## Whole School Solution:

Use Phonics International starting as a beginners' reading, spelling and handwriting programme which moves seamlessly to a full spelling programme.

## Spelling Programme:

Use Phonics International as a spelling programme for older learners. Focus on a specific sound and teach the spelling alternatives from selected resources gradually building-up word banks.

## Intervention Programme:

Use Phonics International as an intervention programme for all ages to increase Alphabetic Code knowledge and improve the three skills of blending, segmenting and handwriting.
